APRIL, MAY and JUNE 2011

April 2011 is one of the worst months for doing business that I have seen in over 20 years of writing *The Right Time*. This is due to Mercury RX from 3/30/11 until 4/23/11 and unusually long periods of Void-of-Course (Moon making no aspects to planets in the solar system before moving into a new sign). Many businesses that try to begin new projects/services will find little success and may have to redo their contracts and plans. As good as 4/4/11 is, with the Sun conjoined Jupiter (great for new incorporations), it is very difficult to find a good time on that date as it is both Void-of-Course and Mercury RX. We have gone from one of the best quarters for doing business to one of the most difficult quarters in years.

BEST MAILING DATES: 5/3 thru 5/16, 6/2 thru 6/14, 7/1 thru 7/14, 8/29 thru 9/11, 9/28 thru 10/11, 10/27 thru 11/9, 11/26 thru 12/9, 12/25/11 thru 1/7/12.
